PUBLIC COMMENT INSTRUCTIONS

Members of the public may address the Board on any item on the agenda when the item is considered, or under "Opportunity for Public Comment" regarding items not on the posted agenda that are within the subject matter jurisdiction of the Board. If attending via Zoom, attendees must click the hand raise icon within the meeting platform and will be called on to unmute themselves when it is their turn to speak. If attending in person, fill out a "request to speak" form located near the entrance of the board room and give to the Board Secretary. Public comments are limited to 3 minutes.

Public comments may also be submitted in writing through the <u>public comment e-form</u> at least a half hour prior to the start of the meeting or mailed to the attention of Amy Pederson, Padre Dam, PO Box 719003, Santee, CA 92072. These public comment procedures supersede the District's normal public comment policies and procedures to the contrary.

The complete agenda package is available for public review at <u>www.PadreDam.org</u>. No action may be taken on any item not appearing on the posted agenda, except as provided by Gov. Code Section 54954.2. Any written materials provided to the Board within 72 hours of the meeting regarding any item on this agenda will be available for public inspection on the District's website. For questions or request for information related to this agenda contact Amy Pederson, Board Secretary, at 619.258.4614 or <u>apederson@padre.org</u>.

Upon request, this agenda will be made available in appropriate alternative formats to persons with disabilities, as required by Section 202 of the American with Disabilities Act of 1990. Any person with a disability who requires a modification or accommodation in order to participate in a meeting should contact our ADA Coordinator: Larry Costello at 619.258.4678 or <a href="https://www.costello.actello.gov/locatello.g

<u>AGENDA</u>

• CALL TO ORDER

• PLEDGE OF ALLEGIANCE

OPPORTUNITY FOR PUBLIC COMMENT Opportunity for members of the public to address the Board regarding items not appearing on this agenda and are within the jurisdiction of the Board (Gov. Code 54954.3)

• ITEMS TO BE ADDED, WITHDRAWN OR REORDERED ON THE AGENDA

1. APPROVAL OF MINUTES

Recommendation:

Approve the minutes of the September 21, 2022 and October 5, 2022 Regular Board Meetings.

• CONSENT AGENDA

Items are considered to be routine and will be acted upon by a single motion without discussion, unless a Board Member, staff, or the public request a specific item be removed from the consent agenda for discussion.

2. DEMAND PAYMENTS

Recommendation:

Approve Demand Payments from August 31, 2022 to September 28, 2022.

3. DIRECTORS COMPENSATION AND EXPENSE CLAIMS

Recommendation:

Approve claims and authorize payments.

4. CAPITALIZATION OF CONTRIBUTED ASSETS

Recommendation:

Accept Contributed Assets report and adopt resolution authorizing the amount indicated to be added to the appropriate accounting records.

5. QUITCLAIM OF SEWER EASEMENT ON APN 483-090-16-00

Recommendation:

Adopt resolution approving the Quitclaim of a sewer easement located on APN 483-090-16-00 to the property owner, JKC Graves, LLC.

6. SANTEE LAKES AQUATIC WEED HARVESTER PURCHASE

Recommendation:

Approve the sole source purchase of replacement Aquatic Weed Harvester and related equipment totaling \$255,300 from Aquarius Systems.

ACTION AGENDA

Items on the Action Agenda call for discussion and action by the Board. All items are placed on the Agenda so that the Board may discuss and take action on the item if the Board is so inclined.

7. DELEGATION OF AUTHORITY TO CEO/GENERAL MANAGER REGARDING ASSIGNMENT OF PROFESSIONAL SERVICES AGREEMENT FOR CONCESSION SERVICES AT SANTEE LAKES RECREATION PRESERVE

Recommendation:

Authorize the delegation of authority to the CEO/General Manager or his designee to approve assignment of the current Professional Services Agreement for Concession Services at Santee Lakes upon terms deemed acceptable to the CEO/General Manager or his designee, and take such other actions necessary to effectuate the assignment.

REPORTS

The following items are reports and are placed on the Agenda to provide information to the Board and the public. There is no action called for on these items. The Board may engage in discussion upon which a specific subject matter is identified but may not take any action other than to place the matter on a future agenda.

8. BOARD REPORTS

- A. County Water Authority (CWA) Board of Directors Meeting
- B. Metro Commission/Metro Wastewater JPA
- C. San Diego Area Wastewater Management District (SanDist) Annual Meeting
- D. Santee Chamber of Commerce Governmental Affairs Committee Meeting
- E. East County Economic Development Council
- F. Other meetings/conferences/events attended by Directors per AB1234 (Council of Water Utilities, CSDA San Diego Chapter, etc.)

• DIRECTORS COMMENTS

Directors' comments are to be related to District business which may be of interest to the Board. They are placed on the agenda to enable individual Board Members to convey information to the Board and the Public. There is to be no discussion or action taken on comments made by Board Members.

9. DISTRICT COUNSEL'S REPORT

10. GENERAL MANAGER'S REPORT

CLOSED SESSION

At any time during the regular session, the Board may adjourn to closed session to consider litigation, or discuss with Legal Counsel matters within the attorney-client privilege, subject to the appropriate disclosures.

ADJOURNMENT

CERTIFICATION OF POSTING

I certify that on October 14, 2022, I posted a copy of the foregoing agenda near the regular meeting place of the Board of Directors of Padre Dam Municipal Water District, said time being at least 72 hours prior to the meeting, in accordance with Gov. Code Section 54954.2(a).

Amy Rederson Amy Pederson, Board Secretary

MINUTES OF THE REGULAR MEETING OF THE BOARD OF DIRECTORS OF PADRE DAM MUNICIPAL WATER DISTRICT HELD ON WEDNESDAY, SEPTEMBER 21, 2022

The regular meeting of the Board of Directors of Padre Dam Municipal Water District was held on Wednesday, September 21, 2022, at the appointed meeting place, the Board Room at the District's Customer Service Center, located at 9300 Fanita Parkway in Santee and by video conference as an option for remote participation pursuant to recent amendments to the Brown Act permitting virtual meetings and waiving certain teleconference requirements under certain circumstances.

President Pommering called the meeting to order at 4:00 pm. A quorum was declared by roll call vote, and the following Directors were present: Caires, Pommering, Qualin, Till and Wilson.

Directors absent: None

Staff members present: Kyle Swanson, CEO/General Manager; Mark Niemiec, Director of AWP; Karen Jassoy, CFO/Director of Finance; Lisa Sorce, Director of Human Resources & Administrative Services; Paul Clarke, Director of Operations & Water Quality; Laura Koval, Director of Park & Recreation; Amy Pederson, Board Secretary; Paula de Sousa, District Counsel; Melissa McChesney, Communications Manager; Jessica Reifschneider, Administrative Assistant; Wilson Lau, Engineer; Jen Gordon, GIS Coordinator; Emma Shea, Communications Coordinator; Jun Lee, Information Systems Analyst; Rebecca Abbott, AWP Engineering Manager; Tom Martin, Engineering Technician; Melissa Kussman, Human Resources Specialist; Vincent De Anda, Engineering Technician; Rob Northcote, Plant Manager; Lewis Clapp, Engineering Manager

Visitors present: Justin Ryan, Santee resident; Brian Fordyce, Fordyce Construction; John Morley; Jose Orosco

OPPORTUNITY FOR PUBLIC COMMENT

There were no public comments.

ITEMS TO BE ADDED, WITHDRAWN, OR REORDERED ON THE AGENDA

There were no items to be added, withdrawn, or reordered at this time.

1. APPROVAL OF MINUTES

On motion of Director Wilson, seconded by Director Till, and unanimously carried by roll call vote, the minutes of the August 17, 2022 and September 7, 2022 Regular Board Meetings were approved as submitted.

CONSENT AGENDA

Items are considered to be routine and will be acted upon by a single motion without discussion, unless a Board Member, staff, or the public request a specific item be removed from the consent agenda for discussion.

On motion of Director Caires, seconded by Director Pommering, and unanimously carried by roll call vote, items 2 through 4 were approved as submitted.

2. DEMAND PAYMENTS

The Board approved Demand Payments from July 30, 2022 to August 30, 2022.

3. DIRECTORS COMPENSATION AND EXPENSE CLAIMS

The Board approved the claims and authorized payments.

4. GENERAL MANAGER'S EXPENSE CLAIM

The Board approved the claim and authorized payment.

• ACTION AGENDA

Items on the Action Agenda call for discussion and action by the Board. All items are placed on the Agenda so that the Board may discuss and take action on the item if the Board is so inclined.

5. CONTRACT AMENDMENT WITH TRIDEN GROUP FOR CYBER SECURITY SERVICES

Diane Johnson, Information Systems Technical Specialist, reviewed the cybersecurity services Triden Group currently provides and explained additional services are needed to add real-time data collection and additional monitoring that will greatly enhance the District's cybersecurity posture by allowing staff to detect unusual behavior early in the attack chain to lessen damage from a threat or incident.

On motion of Director Qualin, seconded by Director Till, and unanimously carried by roll call vote, the Board authorized the CEO/General Manager to amend the Professional Services Agreement for Managed Information Security Services with Triden Group/eSentire, to add esLOG monitoring service for two years at a not-to-exceed cost of \$68,060 (\$34,030 per year).

6. NEW UNIFIED COMMUNICATIONS AND CONTACT CENTER PLATFORM

Kyle Swanson, General Manager, introduced Dave Salinard as the District's new Information Systems Manager. He reviewed Mr. Salinard's experience and welcomed him to the District.

Mr. Salinard provided an overview of the unified communications (UC) platform stating the platform is a combined multiple enterprise communication system consisting of phone and video calls, individual and team messaging, voicemail and content sharing all in a single system. He explained the current phone system is outdated and no longer supported for repairs or upgrades and does not provide the advanced features available with the proposed UC platform, emphasizing if the current phone system fails the District would be without a phone system until the failed system was replaced. He reviewed the benefits of the UC platform including improved customer service, increased productivity and security, workforce mobility, and cost consistency. Additionally, he reviewed the Request for Proposals process stating the District hired a consultant to assist in the process and five proposals were received and evaluated by a 12 member team consisting of District staff from various departments. In closing, he provided background information and qualifications for the selected firm, Vertical Communications, reviewed the deployment plan and cost breakdown, and answered Board questions clarifying cost, the deployment approach and how the system operates.

On motion of Director Caires, seconded by Director Wilson, and unanimously carried by roll call vote, the Board authorized the CEO/General Manager, or his designee, to execute a Professional Services Agreement for a Cloud-Based Unified Communications (UC) and Contact Center Platform to the most qualified firm, Vertical Communications, for a not to exceed cost of \$443,239 over five years.

7. ANNUAL REPORT ON THE FIVE YEAR BUSINESS PLAN AND TEN YEAR STRATEGIC PLAN FOR THE YEAR ENDED JUNE 30, 2022

Kyle Swanson, General Manager, kicked off the presentation acknowledging staff's efforts in developing and carrying out the goals identified within the 2018-2022 Five Year Business Plan (Business Plan) and 2012-2022 Strategic Plan (Strategic Plan). He explained today's presentation will be a summary of the status and accomplishments achieved throughout the duration of the Plans and provided an overview of both Plans noting the recently Board approved Five Year Strategic Business Plan is a combination of these Plans for 2023-2027.

Melissa McChesney, Communications Managers, summarized the six goals outlined in the Strategic Plan addressing challenges facing the District and opportunities to ensure continued success and reviewed the scorecard used to track the progression of the Strategic Plan, stating each goal had many successes over the past ten years.

Karen Jassoy, Director of Finance, provided an overview of the Business Plan's core business functions and reviewed the key performance indicators used to track the qualitative and quantitative status for each business function. She reviewed the financial results at the end of the Five Year Business Plan stating fund balances are favorable to the budget. She presented on the Business Plan Function - Financial Management and Strategic Plan Goal 2 – Ensure Fiscal Health and Competitively Sustainable Rates, highlighting the District completed the next Five Year Budget and rate study achieving a zero percent internal revenue increase and provided financial and grant assistance to the East County Advanced Water Purification (AWP) Joint Powers Authority.

Art Oughton, Customer Service Manager, reported on the Business Plan Function – Customer Service and Strategic Goal 3 – Enhance Customer Communication and Education, highlighting the customer service software system was upgraded; staff applied for and received the maximum amount from the State Arrearages Program; and customer enrollment in electronic billing and Aquahawk registration has increased significantly. Additionally, he shared field services staff completed the meter maintenance program two years ahead of schedule and are now working to replacing the AMI repeater infrastructure with a more efficient system; and meter reading percentages remain at 99.8 percent accuracy. In closing, he shared staff are working on upgrading the electronic billing system for added efficiencies and a more positive customer experience.

Lisa Sorce, Director of Human Resources and Administrative Services, reported on Business Function – Workforce Management & Support and Strategic Goal 5 – Maintain Workforce Excellence, highlighting 32 new employees were hired over the past year despite recent challenges related to COVID, small applicant pools and competitive salaries; reviewed training opportunities and wellness programs offered to staff; and emergency response exercises to prepare for various potential emergencies the District could face. Additionally, she shared staff are highly engaged in the workforce partnership; the District and management staff have a positive relationship with the Padre Dam Employee Association and Mid-Management and Confidential Employees Association; and Human Resources continues to evaluate and ensure competitive compensation and benefits for staff.

Ms. McChesney reported on Business Function – Public Communication and Strategic Goal 3 – Enhance Customer Communications and Education, highlighting public outreach efforts accomplished to engage and educate the public including tours, articles and social media posts showing the work staff perform, drought and long term conservation, current legislation including their impacts on the District and its customers, and updates on the East County AWP project.

Ms. Sorce reported on Business Function – Information Technology and Strategic Goal 2 – Ensure Fiscal Health and Competitively Sustainable Rates, highlighting efforts made to enhance cybersecurity; deployment of hardware to allow teleworking in response to COVID-19; support and maintenance of all District software; efforts made to replace the District's outdated phone system; and continued development and updates to the Geographic Information Systems.

Michael Hindle, Engineering Manager, reported on Business Function – Engineering and Development and Strategic Goal 4 – Increase Water, Wastewater and Energy Independence, highlighting efforts to support the East County AWP project; Development Services statistics including \$2.21 million in new service in fiscal year 2022, oversite of 28 active development projects and over 1,000 utility markouts; and Capital Improvement statistics including critical improvement projects completed in fiscal year 2022. He reviewed the Capital Improvement Plan budget broken down by funds spent, committed for future construction and development, and reserved for future development.

Mark Niemiec, Director of AWP, also reported on Business Function – Engineering and Development and Strategic Goal 4 – Increase Water, Wastewater and Energy Independence, highlighting the progress of the East County AWP Project now in the construction phase. Additionally, he reviewed efforts made to explore biofuel opportunities for the Project, stating the East County AWP Joint Powers Authority (JPA) is in the process of selecting a develop, operate and maintain firm to recycle the gas produced from East County AWP facilities and use it to generate energy in order to offset cost from San Diego Gas & Electric.

Paul Clarke, Director of Operations and Water Quality, reported on Business Function – Operations and Water Quality and Strategic Goal 1 – Provide Safe, Reliable Water, Recycled Water and Wastewater Services, highlighting staff from the Operations Department that have worked out of class and transitioned to new positions to support the East County AWP Project; awards received from the California Water Environment Association recognizing the District's high performing collection system; and efforts made to evaluate and prevent risks to District facilities and infrastructure stating this information was used to develop the Emergency Response Plan.

Laura Koval, Director of Park and Recreation, reported on Business Function – Park and Campground and Strategic Goal 6 – Expand Park and Recreation Opportunities, highlighting various awards of excellence received by the Park; marketing efforts; and construction projects completed over the lifetime of the Strategic Plan; and stated the annual gross revenue for the Park was \$8 million, a huge accomplishment given challenges related to COVID and Park construction. She provided examples of Park events and partnerships with the community in order to build relationships and increase recreational programs.

Informational report only; no action required.

• REPORTS

The following items are reports and are placed on the Agenda to provide information to the Board and the public. There is no action called for on these items. The Board may engage in discussion upon which a specific subject matter is identified but may not take any action other than to place the matter on a future agenda.

8. BOARD REPORTS

- A. County Water Authority (CWA) Board of Directors Meeting Director Pommering stated the meeting is scheduled for tomorrow.
- B. Metro Commission/Metro Wastewater JPA No report.
- C. Santee Chamber of Commerce Board Meeting Director Pommering stated currently there is no representative for the Santee Chamber of Commerce and requested staff agendize consideration of appointing a new representative at the next Board meeting.
- D. Santee Chamber of Commerce Governmental Affairs Committee Meeting Director Pommering offered to answer any questions to his written report.
- E. East County Economic Development Council Director Pommering stated he will submit a written report to be added to the agenda.
- F. Other meetings/conferences/events attended by Directors per AB1234 (Council of Water Utilities, CSDA San Diego Chapter, etc.) Director Wilson reported on his attendance to the September COWU meeting and summarized the presentation given at the meeting titled Leak Detection: Real Life Application of Data.

• DIRECTORS COMMENTS

Directors' comments are to be related to District business which may be of interest to the Board. They are placed on the agenda to enable individual Board Members to convey information to the Board and the Public. There is to be no discussion or action taken on comments made by Board Members.

Director Till reported Governor Newson recently signed a climate change action bill and has \$54 Billion to spend.

9. DISTRICT COUNSEL'S REPORT

Paula de Sousa, District Counsel, stated AB 2449 amending the Brown Act to allow remote Board attendance at Board meetings in certain emergency circumstances, was signed and will take effect January 1, 2023. Additionally, she stated SB 1439 is pending and if passed would make campaign contributions disqualifying interests for board members that are directly elected to their positions.

10. GENERAL MANAGER'S REPORT None

11. INFORMATIONAL REPORTS

The following reports were noted and filed.

- A. Notice of Completion Santee Townhomes/Carlton Oaks Drive (JN 220002)
- B. Notice of Completion Summit Avenue (JN 219009)

ADJOURNMENT

President Pommering declared the meeting adjourned at 6:03 pm.

Board President

ATTEST:

Board Secretary

MINUTES OF THE REGULAR MEETING OF THE BOARD OF DIRECTORS OF PADRE DAM MUNICIPAL WATER DISTRICT HELD ON WEDNESDAY, OCTOBER 5, 2022

The regular meeting of the Board of Directors of Padre Dam Municipal Water District was held on Wednesday, October 5, 2022, at the appointed meeting place, the Board Room at the District's Customer Service Center, located at 9300 Fanita Parkway in Santee and by video conference as an option for remote participation pursuant to recent amendments to the Brown Act permitting virtual meetings and waiving certain teleconference requirements under certain circumstances.

President Pommering called the meeting to order at 4:00 pm. A quorum was declared by roll call vote, and the following Directors were present: Caires, Pommering, Qualin, and Till.

Directors absent: Wilson (Arrived at 4:11 pm)

Staff members present: Kyle Swanson, CEO/General Manager; Mark Niemiec, Director of AWP; Karen Jassoy, CFO/Director of Finance; Lisa Sorce, Director of Human Resources & Administrative Services; Paul Clarke, Director of Operations & Water Quality; Laura Koval, Director of Park & Recreation; Amy Pederson, Board Secretary; Nicholaus Norvell, District Counsel; Melissa McChesney, Communications Manager; Greg Even, Park and Recreation Supervisor; Casey Price, Administrative Assistant, Jessica Reifschneider, Administrative Assistant; Emma Shea, Communications Coordinator; Jun Lee, Information Systems Analyst; Diane Johnson, Information Systems Technical Specialist; Nina Tarantino, Human Resources Specialist; Melissa Kussman, Human Resources Specialist; Jen Gordon, GIS Coordinator; Ernie Green, Information Systems Technical Specialist;

Visitors present: Jose Orosco; John Morley; Brian Fordyce

OPPORTUNITY FOR PUBLIC COMMENT

There were no public comments.

ITEMS TO BE ADDED, WITHDRAWN, OR REORDERED ON THE AGENDA

There were no items to be added, withdrawn, or reordered at this time.

NEW EMPLOYEE INTRODUCTIONS

Lisa Sorce, Director of Human Resources and Administrative Services, introduced new employees from the Park, Engineering, Human Resources, Information Services, Customer Service, Communications, Admin, and Operations departments.

CONSENT AGENDA

Items are considered to be routine and will be acted upon by a single motion without discussion, unless a Board Member, staff, or the public request a specific item be removed from the consent agenda for discussion.

A member of the public called in to oppose Agenda Item 1, the Board's continued use of conducting meetings under AB 361 due to the relaxed requirements for teleconferencing. She requested the Board develop a policy for hybrid and in person meetings under the umbrella of accessibility and equality instead of AB 361.

Director Till stated she is interested in hearing what the Board of Supervisors is doing for teleconferencing and expressed support for continuing teleconferencing under AB361 due to COVID-19 still impacting the community.

Director Pommering confirmed with legal counsel that the District is still in compliance with the law by approving AB 361.

On motion of Director Till, seconded by Director Caires, and unanimously carried by roll call vote, items 1 and 2 were approved as submitted.

1. AUTHORIZATION FOR REMOTE TELECONFERENCE PUBLIC MEETINGS IN ACCORDANCE WITH ASSEMBLY BILL 361

The Board made findings that the Governor's Proclamation of a State of Emergency remains in effect, and state and local officials continue to impose or recommend social distancing, and authorize remote teleconference meetings for Padre Dam's legislative bodies pursuant to Brown Act provisions enacted by AB 361.

2. RESOLUTION RECOGNIZING BRYAN HAGUE FOR 20 YEARS OF DISTRICT SERVICE

The Board adopted Resolution 2022-30 recognizing Bryan A. Hague, Park Operations Manager, upon completion of 20 years of service with Padre Dam.

• ACTION AGENDA

Items on the Action Agenda call for discussion and action by the Board. All items are placed on the Agenda so that the Board may discuss and take action on the item if the Board is so inclined.

3. AGREEMENT FOR THE PURCHASE AND INSTALLATION OF FOUNTAINS IN LAKES 1 AND 2 (JN 222016)

Greg Even, Park Operations Supervisor, discussed the benefits of having fountains at Lakes 1 and 2 and provided a map of the layout of the 4 fountains in Lake 1 and 3 fountains in Lake 2. He discussed the ability to change height, style, and colors of fountains to co-inside with holidays and events.

Responding to Director Till, Mr. Even noted Lakes 1, 2, 3, 5, and 6 currently have aeration systems that were put in throughout the years that will run in conjunction with the new fountains to assist with water movement and water quality.

Director Pommering stated the aesthetics from the fountains are an added benefit to water quality and environmental improvements.

On motion of Director Wilson, seconded by Director Pommering, and unanimously carried by roll call vote, the Board authorized execution of an agreement with AquaTechnex LLC for the purchase and installation of fountains in Lakes 1 and 2 for a not to exceed cost of \$115,545.52 and authorized the CEO/General Manager, or his designee, to modify the contract amount up to \$1,000 for additional work.

4. CONSIDER APPOINTMENT TO THE SANTEE CHAMBER OF COMMERCE BOARD OF DIRECTORS

Director Pommering recommended appointment of Director Qualin as the District's representative on the Santee Chamber of Commerce Board of Directors.

On motion of Director Pommering, seconded by Director Caires, and unanimously carried by roll call vote, the Board approved President Pommering's recommendation to appoint Director Qualin to serve as Padre Dam's representative on the Santee Chamber of Commerce Board of Directors.

5. WATER SUPPLY UPDATE

Melissa McChesney, Communications Manager, gave an overview of the State drought timeline from April 2021 through June 2022. She discussed the mega drought being the worst in 1200 years which has impacted both the Colorado River Basin and the State Water Project. She reviewed the Colorado River Basin conditions noting that Lake Mead and Lake Powell are at just 27 percent of capacity and discussed the Federal Government will be allocating \$4 billion towards incentivizing conservation. She provided the overall stats of precipitation, reservoir storage, and drought status from California's 2022 water year and noted the record setting heat wave in September closed out the driest three year period on record with a likelihood of a fourth year. She provided a quote from the Department of Water Resources (DWR) Director Karla Nemeth regarding working with federal, state, local, and academic partners on the water supply. She reviewed the California water supply strategy including modernizing water infrastructure, additional budget for drought relief to hard-hit communities, 10 percent reduction expected for current water supply by 2040, water resilience portfolios, and moving faster and smarter going forward with a plan to develop new water supplies, expand water supply storage capacity above and below ground, reduce demand, and improve forecasting, data, and management. In closing, she discussed entering into the new 2023 water year and the possibility of the State implementing emergency regulations if the State enters a fourth dry year and explained the regulations will be done on an agency level instead of a statewide approach in order to account for water supplies, climate, and a variety of other factors.

Responding to Director Till, Ms. McChesney stated the District is working with a lobbying team to schedule a meeting for Staff to meet with the Governor's office to discuss the different water supply strategy elements, funding for these elements, and how we can work together on the elements related to the East County Advanced Water Purification (AWP) project. She noted the District is continuing to work with elected officials and Senator Toni Atkins will be coming for a tour in the upcoming months. Additionally, she shared water conservations kits that have been provided by the San Diego County Water Authority which include a bucket with a spray nozzle, moisture monitor, and literature.

Informational report only; no action required.

• **REPORTS**

The following items are reports and are placed on the Agenda to provide information to the Board and the public. There is no action called for on these items. The Board may engage in discussion upon which a specific subject matter is identified but may not take any action other than to place the matter on a future agenda.

6. BOARD REPORTS

- A. County Water Authority (CWA) Board of Directors Meeting Director Pommering offered to answer any questions to his written report.
- B. Metro Commission/Metro Wastewater JPA Karen Jassoy offered to answer any questions to her written report.
- C. 457 Plan Ad Hoc Committee Director Pommering offered to answer any questions to his written report.

Director Wilson reported the market is continuing to go down but staff should continue to keep investments and noted the District is reviewing possible investment changes in the future.

- D. San Diego East County Chamber of Commerce Government Affairs & Infrastructure Land Use Committee
 Director Pommering offered to answer any questions to his written report.
- E. Other meetings/conferences/events attended by Directors per AB1234 (Council of Water Utilities, CSDA San Diego Chapter, etc.) None

• DIRECTORS COMMENTS

Directors' comments are to be related to District business which may be of interest to the Board. They are placed on the agenda to enable individual Board Members to convey information to the Board and the Public. There is to be no discussion or action taken on comments made by Board Members.

Director Wilson apologized for his being late stating he is currently in a different time zone.

Director Caires congratulated Bryan Hague on 20 years of District service.

Director Till reported she met with San Diego City Council Member Campillo regarding the AWP project and stated his staff was under the assumption all AWP issues with the City were resolved. She reviewed the outstanding issues and commented that the Council staff would like to be kept up to date on construction.

Director Pommering wished Director Caires a happy birthday.

7. DISTRICT COUNSEL'S REPORT No report.

8. GENERAL MANAGER'S REPORT

Kyle Swanson turned it over to Melissa McChesney to provide a Legislative update.

Ms. McChesney reported SB 1157, new indoor water use standards are being reduced to 42 Gallons Per-Capita Per Day (GPCD) by 2030 and was signed by the Governor however, the Governor's signing message asks the legislature to provide funding for the DWR to complete required studies

and for the State Water Board to include variances such as local investments in recycled water and infrastructure. She stated the District will continue to be involved with the Association of California Water Agencies so the District will be engaged in the studies.

Ms. McChesney shared that SB222 for low income water rate assistance was vetoed by the Governor and shared a quote from the Governor with details of the veto.

Responding to Director Till, Ms. McChesney noted SB 1157 for indoor water use is separate from outdoor standards which will be coming in the future.

9. INFORMATIONAL REPORTS

The following reports were noted and filed:

- A. Notice of Completion Grossmont Tank Interior Recoating and Repairs (JN 218024)
- B. Notice of Completion Cordial Road Pipeline Replacement Project (JN 219026)
- C. Finance and Treasurer's Report for the Two Months Ended August 31, 2022

ADJOURNMENT

President Pommering declared the meeting adjourned at 4:43 pm.

Board President

Pursuant to California Government Code Section 53646 and the District Standard Practices and Policies Manual, Section 19.2, Investment Policy, the Board is to receive monthly reports of the summary of financial operations, cash balances and investments.

RECOMMENDATION(S):

Accept Contributed Assets report and adopt a resolution authorizing the amount indicated to be added to the appropriate accounting records.

RESOLUTION 2022-___

RESOLUTION OF THE BOARD OF DIRECTORS OF PADRE DAM MUNICIPAL WATER DISTRICT DETERMINING VALUE OF CONTRIBUTED ASSETS (July 1, 2022 through September 30, 2022)

WHEREAS, by authorization given in Resolution No. 77-125, the General Manager has accepted as contributions to the District the water and sewer facilities described on the attached Exhibit A; and

WHEREAS, it is in the interest of the District to place a value on said assets for accounting purposes;

NOW, THEREFORE, IT IS HEREBY RESOLVED, DETERMINED AND ORDERED by the Board of Directors of Padre Dam Municipal Water District as follows:

- 1. That the value of the Facilities described on Exhibit A, heretofore contributed to and accepted by the District during the period from July 1, 2022 through September 30, 2022 is hereby fixed as the value of said assets for accounting purposes; and
- 2. That the accounting books and records of the District shall be maintained in order to reflect the foregoing determination of the Board.

PASSED AND ADOPTED at a regular meeting of the Board of Directors of Padre Dam Municipal Water District held on October 19, 2022, by the following vote:

EXECUTIVE SUMMARY:

On November 26, 1969, Padre Dam Municipal Water District accepted an easement for sewer facilities on private property in anticipation of future development. Subsequently, the property was developed but did not make use of the easement. The current property owner is looking to redevelop the property and has asked Padre Dam to quitclaim the easement. The area to be quitclaimed is located on the property identified by APN 483-090-16-00, which is owned by JKC Graves, LLC. Staff has reviewed the sewer facilities within the area and determined that the extension of public sewer services over this easement is not necessary to serve the property, as sewer is available immediately adjacent to the site within the public right-of-way.

RECOMMENDATION(S):

Adopt resolution approving the Quitclaim of a sewer easement located on APN 483-090-16-00 to the property owner, JKC Graves, LLC.

RESOLUTION 2022-___

RESOLUTION OF THE BOARD OF DIRECTORS OF PADRE DAM MUNICIPAL WATER DISTRICT APPROVING AND AUTHORIZING EXECUTION OF QUITCLAIM OF EASEMENT

WHEREAS, a proposed quitclaim of an existing easement described in Document No. 69-216207 recorded on November 26, 1969 in the County of San Diego has been presented to the Board, a copy of which is attached hereto as Exhibit A; and

WHEREAS, the property described in said quitclaim is no longer needed for District purposes; and

WHEREAS, it is in the interest of the District to approve and execute said quitclaim.

NOW, THEREFORE, IT IS HEREBY RESOLVED, DETERMINED AND ORDERED by the Board of Directors of Padre Dam Municipal Water District as follows:

- 1. That said quitclaim of easement be and is approved.
- 2. That the General Manager, or his designee, is hereby are authorized and directed to execute said quitclaim to the property owners described therein.

PASSED AND ADOPTED at a regular meeting of the Board of Directors of Padre Dam Municipal Water District held on October 19, 2022, by the following vote:

Finance		Resolution		Rules & Regulations	Reso/Ord. No.
Legal Counsel		Ordinance		Standard Practices	
Standard Form		None		& Policies	Other

EXECUTIVE SUMMARY:

Park staff is recommending the replacement purchase of the aging Aquatic Weed Harvester model -220, transport trailer, and shore conveyor. The weed harvester is a vital piece of lake maintenance equipment that is used throughout the year to help maintain the Lakes. The District's current Aquatic Weed Harvester has been in operation for 20 years and is currently non-operational awaiting engine repairs. There has been an increase in annual maintenance and repairs on the existing harvester over the past few years.

Staff is recommending utilizing the District's Sole Source Purchase policy as there are no other comparable products manufactured nationally that match Park Lake Maintenance needs with a viable market product.

It is anticipated that supply and manufacturing issues will impact delivery of the new harvester being built in Wisconsin. Delivery of the new unit is expected in 2024 if purchased this year.

Below are photos of the current harvester and shore conveyor:

RECOMMENDATION(S):

Approve sole source purchase of replacement Aquatic Weed Harvester and related equipment totaling \$255,300 from Aquarius Systems.

EXECUTIVE SUMMARY:

At its regular meeting on February 17, 2021, the Board unanimously approved the CEO/General Manager, or his designee, to execute a Professional Services Agreement for Concession Services at Santee Lakes Recreation Preserve with Tin Fish LLC, as Licensee ("Concession Services License Agreement"), which was executed on February 22, 2021, to be effective following completion of construction. The Concession Services License Agreement provided for the following:

- The initial term of three years was effective May 6, 2021 with one option to extend the term of for a period of five years. Santee Lakes commits to negotiate exclusively with Licensee for a period of 90 days regarding an additional five year term before seeking a new licensee for the Concession Premises.
- Santee Lakes to provide standard kitchen equipment with a small stipend for FFE expenses prior to opening.
- Licensee responsible for utilities, all staffing, any required permits/licenses, including those required for food handling, a Type 41 license and customary kitchen operations costs.
- Licensee to pay minimum base rent to Santee Lakes at \$3,000 per month. The monthly base rent will adjust Year 2 by the annual CPI for Urban Wage Earners and Clerical Workers (CPI-W) for San Diego–Carlsbad, California and include an additional percentage of gross sales as set forth in Exhibit C of the Concession Services License Agreement.
- Licensee to provide for the general cleaning and up-keep of dining deck area adjacent to the concession building.
- Licensee to maintain agreed upon business hours.
- Licensee prohibited from making changes in, alterations or additions to, or removing any portion of the building, facility, etc. belonging to the District without first obtaining written approval of the Director of Park and Recreation or her designee.
- Licensee marketing and signage to require written approval of the Director of Park and Recreation or her designee.

On September 8, 2022, Tin Fish Santee Lakes Owner/Operator Ed Kim provided notice to Santee Lakes that he intended to cease its operations at Santee Lakes. Following discussions between Tin Fish and Santee Lakes/ District representatives, it was determined that an assignment of the Concession Services License Agreement to another concessionaire would best meet the needs of both Tin Fish and Santee Lakes.

Pursuant the language in Section 17 of the contract, the District may approve assignment of the existing Concession Services License Agreement at its sole discretion.

District representatives have identified multiple vendors who are interested in assignment of the existing Agreement and a competitive evaluation process will be held to determine which vendor would be recommended for the contract assignment considerate of the Board's approval of the recommendation.

RECOMMENDATION(S):

Authorize the delegation of authority to the CEO/General Manager or his designee to approve assignment of the current Professional Services Agreement for Concession Services at Santee Lakes upon terms deemed acceptable to the CEO/General Manager or his designee, and take such other actions necessary to effectuate the assignment.

NOTICE TO THE PUBLIC

- 3. Opportunity for members of the public who wish to address the Board on matters within the Board's jurisdiction.
- 4. SPECIAL AB 361 DETERMINATION <u>Assembly Bill 361 Continued Determination Acknowledging the Governor of the</u> <u>State of California's Proclamation of a State of Emergency and of Remote</u>

David Edwards

<u>Teleconference Meetings of the Legislative Bodies of San Diego County Water</u> <u>Authority due to the Emergency Pursuant to Brown Act Provisions.</u> <u>Staff recommendation</u>: Acknowledge the Governor's proclaimed State of Emergency and approve continued remote teleconference meetings of the legislative bodies of San Diego County Water Authority due to the emergency pursuant to Brown Act after reconsidering the circumstances and finding that state or local officials continue to impose or recommend measures to promote social distancing. (Action)

5. Adjournment.

Melinda Nelson Clerk of the Board

NOTE: All public documents provided to the Board for this meeting including materials related to an item on this agenda and submitted to the Board of Directors within 72 hours prior to this meeting may be reviewed at the San Diego County Water Authority headquarters located at 4677 Overland Avenue, San Diego, CA 920123 at the reception desk during normal business hours.

October 5, 2022

Attention: Board of Directors

Assembly Bill 361 Continued Determination Acknowledging the Governor of the State of California's Proclamation of a State of Emergency and of Remote Teleconference Meetings of the Legislative Bodies of San Diego County Water Authority due to the Emergency Pursuant to Brown Act Provisions. (Action)

Staff recommendation

Acknowledge the Governor's proclaimed State of Emergency, and approve continued remote teleconference meetings of the legislative bodies of San Diego County Water Authority due to the emergency pursuant to Brown Act after reconsidering the circumstances and finding that state or local officials continue to impose or recommend measures to promote social distancing.

Alternative

Do not approve as recommended and instead engage after the October Special Board meeting in standard public meetings outside the special COVID-19 legislation adopted by the Legislature.

Fiscal Impact

There is no fiscal impact.

Executive Summary

COVID-19 legislation passed by the Legislature in Assembly Bill 361 ("AB 361") allows public agencies to have expanded teleconference options under the Brown Act during governmental emergencies, assuming certain conditions are met.

- The legislation requires that there be a proclaimed state of emergency by the Governor. There is one still in effect now.
- The legislation requires certain factors to occur, one of which is that state or local officials have imposed or recommended measures to promote social distancing. That is presently occurring, allowing continued use of virtual Board meetings.

Background

The Water Authority is still under a state of emergency caused by the COVID-19 virus, as declared by Board Resolution 2020-02 dated March 26, 2020. The Board also approved Resolution No. 2021-23 at the October 2021 Board meeting, making the requisite findings for use of the Legislature's expanded teleconference option under the Brown Act. The Board also approved continued findings under AB 361 at the September 22, 2022, board meeting. This is a meeting within 30 days of that approval.

Board of Directors October 5, 2022 Page 2 of 3

The spread of the COVID-19 virus worldwide has caused millions of deaths, widespread economic disruption, and significant forms of government intervention. Though deaths in California from COVID-19 are reducing, they are still occurring, and the Governor's March, 2020, emergency declaration COVID-19 order is still in effect.

Also included in various governmental actions were executive orders by California Governor Newsom allowing public agencies such as the Water Authority to meet "virtually" while still satisfying Brown Act public meeting requirements. Under such authorities, the Water Authority has been meeting virtually since Spring of 2020. However, in the summer of 2021 the California Legislature decided to specify requirements for expanded Brown Act allowances for meetings, enacting AB 361which was then signed into law by Governor Newsom as an urgency statute. It will expire in January of 2024, unless extended.

Basically, AB 361 works like this:

1. A public agency can meet via special expanded teleconference during a proclaimed state of emergency by the Governor so long as:

a. State or local officials have imposed or recommended measures to promote social distancing; OR

b. The agency holds a meeting to determine, by majority vote, whether as a result of the emergency, meeting in person would present imminent risks to the health or safety of attendees; OR

c. The legislative body holds a meeting and has already determined, by majority vote, that, as a result of the emergency, meeting in person would present imminent risks to the health or safety of attendees.

2. Once the above has been done, then the decision must be renewed every 30 days, with the legislative body adopting findings that it has reconsidered the circumstances and (1) the emergency continues to directly impact the ability of the members to meet safely in person or (2) state or local officials continue to impose or recommend measures to promote social distancing.

If the above take place, then an AB 361 teleconference meeting can occur, so long as it uses certain procedures: (a) give notice and post agendas as otherwise required by the Brown Act; (b) list on the agenda how the public can electronically attend and comment at the meeting; (c) allow comment in advance of and during the meeting, with a reasonable amount of time to register and comment (at least the amount of time allowed per agency meeting protocols); (d) all votes must be via rollcall; and (e) comply with state and federal civil rights and non-discrimination laws, and protect the statutory and constitutional rights of the public. These processes have been taken.

The issue before the Board is to again acknowledge the Governor's continuing emergency order, and to reconsider the circumstances and find that state or local officials still impose or recommend measures to promote social distancing so that further special teleconference rules under the Brown Act remain applicable.

Board of Directors October 5, 2022 Page 3 of 3

Discussion

Up until the summer of 2021 the State of California and local agencies generally mandated social distancing. However, such mandates have been replaced by various social distancing recommendations that are still in place as of this meeting. For example:

 The State of California's Department of Public Health on its COVID-19 web page entitled "Current Safety Measures," recommends following the Center for Disease Control's "How To Protect Yourself and Others" (see https://covid19.ca.gov/safelyreopening/#dos-and-donts-for-daily-life). The CDC web page states that one should "keep distance between yourself and others." https://www.cdc.gov/coronavirus/2019ncov/prevent-getting-sick/prevention.html).

Therefore, the prerequisite elements continue to exist for AB 361's "virtual" meeting provisions: there is a declared emergency by the Governor; and there are state or local officials which currently recommend social distancing.

If the Board approves the staff recommendation, virtual Board and Committee meetings will continue to be allowed for 30 days.

Recommendation

The General Manager and General Counsel recommend that the Board adopt the above staff recommendation.

Prepared by: David J. Edwards, General Counsel Approved by: Sandra L. Kerl, General Manager

Regular Meeting of the Metro Commission and Metro Wastewater JPA

AGENDA

Thursday, October 6, 2022 - 12:00 p.m.

"The Metro JPA's mission is to create an equitable partnership with the San Diego City Council and Mayor on regional wastewater issues. Through stakeholder collaboration, open dialogue, and data analysis, the partnership seeks to ensure fair rates for participating agencies, concern for the environment, and regionally balanced decisions." "The Metro JPA's mission is to create an equitable partnership with the San Diego City Council and Mayor on regional wastewater issues. Through stakeholder collaboration, open dialogue, and data analysis, the partnership seeks to ensure fair rates for participating agencies, concern for the environment, and regionally balanced decisions."

IN LIGHT OF THE PROCLAIMED STATE OF EMERGENCY RELATED TO THE COVID-19 PANDEMIC, AND PURSUANT TO GOVERNMENT CODE SECTION 54953(e)(1), THIS METRO COMMISSION/METRO WASTEWATER JPA MEETING WILL BE CONDUCTED REMOTELY AND THERE WILL BE NO PHYSICAL LOCATION FOR IN-PERSON ATTENDANCE. THIS MEETING SHALL ONLY BE ACCESSIBLE TO MEMBERS OF THE PUBLIC TELEPHONICALLY OR VIA ZOOM. ALL MEMBERS OF THE PUBLIC WISHING TO OBSERVE THIS PUBLIC MEETING MUST DIAL IN TO THE TELEPHONE NUMBER INDICATED BELOW OR JOIN THE MEETING BY COMPUTER USING THE LINK BELOW, AND WHEN PROMPTED, USE THE MEETING ID IDENTIFIED BELOW. FURTHER DETAILS ARE BELOW.

Note: Any member of the public may provide comments to the Metro Commission/Metro Wastewater JPA on any agenda item or on a matter not appearing on the agenda, but within the jurisdiction of the Committee. Public comments must be submitted in either of the following manners:

- 1. **Providing Oral Comments During Meeting**. To provide comments in real time during the meeting, join the Zoom meeting by computer, mobile phone, or dial-in number. On Zoom video conference by computer or mobile phone, use the "Raise Hand" feature. This will notify the Secretary that you wish to speak during a specific item on the agenda or during non-agenda Public Comment. If joining the meeting using the Zoom dial-in number, you can raise your hand by pressing *9. Comments will be limited to three (3) minutes
- 2. Written Comments. In order to provide written public comments, your comments must be submitted prior to the start of the meeting to <u>lpeoples@chulavistaca.gov</u>. Please indicate whether your comment is on a specific agenda item or a non-agenda item. Comments are limited to four hundred (400) words. Please submit written comments <u>at least two (2) hours</u> before the start of the meeting. All comments received by such time will be provided to the Committee members in writing. At the discretion of the Chair, the first five (5) comments received on each agenda item, or on non-agenda matters, may be read into the record at the meeting. Comments received less than two (2) hours prior to the start of the meeting will be collected, sent to the Metro Commission/Metro Wastewater JPA Committee members in writing, and made part of the public record.

When providing comments to the Metro Commission/Metro Wastewater JPA please provide your name and city of residence for the record. If you have a written record that you wish to distribute to the Commission/JPA, please provide it to the Secretary via <u>lpeoples@chulavistaca.gov</u>, who will distribute the record to the members. With limited exceptions, all records distributed to the Commission/JPA Board or any Committee of the Board become public records upon distribution.

The public may participate using the following remote options

In compliance with the AMERICANS WITH DISABILITIES ACT

The SANDIST requests individuals who require alternative agenda format or special accommodations to participate in the SANDIST meetings, contact Adriana Ochoa at <u>adriana.ochoa@procopio.com</u> Requests for disability-related modifications or accommodations require different lead times and should be provided at least 72-hours in advance of a meeting.

DIRECTOR'S REPORT OF CONFERENCE/MEETING ATTENDANCE

Submitted by:	Bill Pommering
Conference/Meeting:	San Diego East County Economic Development Council Board Meeting
Attendance Date(s):	10/19/22

SUMMARY OF CONFERENCE OR MEETING

The meeting was called to order at 7:32 AM. This was a Zoom-only meeting. The minutes from September 21, 2022, meeting was approved. Forty-three people were in attendance as of the roll call.

Q! 2022-23 FINANCIAL SUMMARY — Assets have remained stable. Expenses have been kept within projections and Net Income continues to remain on track.

PRESIDENT'S REPORT — The status of all ongoing, active projects was given. Continue to work with partners throughout the region (beyond East County).

MANUFACTURING EXPO 2022 RECAP — Held on October 04, 2022, for the seventh year. Held at Ronald Reagan Center in El Cajon from 3-6 PM. Workshop was held on "Retaining Employees." Over forty-five exhibitors participated. It was an overall success.

COMMITTEE UPDATES —

SKILLED WORKFORCE: Meeting later this week. Will be working on future projects. The focus will remain on outreach learning opportunities. Connecting work-world to classrooms.

GILLESPIE FIELD: Committee met yesterday. Working with the new Director of Airports for the County. The Cajon Air Center (70 acres) must be for aeronautics use only. Bradley/67 interchange will break ground in Spring 2023.

ADVOCACY: Meeting with the Director of the new county office of Economic Development and Governmental Affairs later today.

LEGISLATIVE/MEMBER UPDATES —

SUPERVISOR JOEL ANDERSON'S OFFICE: Expanding the First-Time Homebuyer Program; Established a new Veteran's Center in East County. Working on addressing the opioid crisis in San Diego County.

CITY OF SANTEE: Will be addressing the process of allowing cannabis sales within the City at the next Council Meeting. The second reading on housing issues will be held at the Council meeting next week. There are currently six residential projects being constructed in the City. Sportsmen's Warehouse has just opened. The Old Hometown Buffet location has been sold and occupancy will be announced within a month or so. The Old Best Buy site is likely to be remodeled as a grocery store.

LEMON GROVE: New housing construction is underway. Sales tax revenue is higher than projected. City is almost back to full staffing.

GROSSMONT/CUYAMACA COLLEGE DISTRICT: Hosting Homeless Task Force meeting.

GROSSMONT HEALTHCARE DISTRICT: 70th Anniversary as a Special District. Veteran's issues: working to place a VA clinic in Escondido and hoping to relocate that placement more into East County location.

HELIX WATER DISTRICT: New General Manager, Brian Olney.

OTAY WATER DISTRICT: Working to integrate a career water program into a local high school.

COUNTY WATER AUTHORITY: Promoting a Bachelor of Public Works degree program with local colleges.

EAST COUNTY CHAMBER OF COMMERCE: 20th Annual Women in Leadership luncheon will be held this Friday.

The meeting was adjourned at 10:07 AM.

The next meeting is scheduled for November 16, 2022. It is scheduled to be a Zoom meeting.

ACWA

vol. **10** Oct. 14, 2022

ACWA member agencies throughout California celebrated the sixth annual Water Professionals Appreciation Week Oct. 1-9 with activities, social media posts and employee recognition events. See pages 10 and 11 for a collage of photographs and social media posts from the ACWA community.

Final Actions on 2022 State Legislation Include SB 222 Veto

Gov. Gavin Newsom on Sept. 28 vetoed SB 222 (Dodd), which would have created an inefficient Water Rate Assistance Program to provide financial assistance for both drinking water and wastewater services to lowincome residential ratepayers.

ACWA believes a water and wastewater low-income rate assistance program – if designed in a reasonable, efficient and effective manner – is an appropriate approach. However, as re-written in 2022, the bill had many problematic provisions. ACWA and an ACWA-led SB 222 oppose-unless-amended coalition obtained many amendments to the bill, which the Assembly and Senate approved during the closing days of the 2021-'22 Legislative Session.

However, the final version of the bill still proposed an inefficient and unclear mix of enrollment roles for both the State Water Resources Control Board and water and wastewater systems. ACWA and coalition advocacy continued through two letters urging Newsom to veto the bill. The veto requests identified deficiencies within the proposed program, including how it would waste program funding, once identified, on administration.

"For example, auto enrollment based on enrollment in other lowincome assistance programs such as

SB 222 continued on page 5

ACWA Forming Nonprofit Foundation to Promote Diversity

ACWA has filed the legal documents to form a new nonprofit ACWA Foundation to advance workforce and leadership development by promoting diversity, equity and inclusion (DEI) in the water industry.

While filing for incorporation and obtaining 501 (c)(3) tax-exempt nonprofit status could take several months to complete, a Fundraising Workgroup has started soliciting donations to get the foundation running.

The progress comes after several months of research, planning and discussion by a steering committee and four workgroups of numerous ACWA members and staff and final approval by the ACWA Board of Directors last month.

"I'm so excited to see this project one step closer to fruition," said ACWA President Pamela Tobin. "As the water industry continues to experience retirements and challenges with recruitment, there is a critical need for this foundation to help create pathways for investment in scholarships, training and mentorships. Investing in the next generation of water leaders with an emphasis on attracting a more diverse workforce benefits our industry and the communities we serve."

The foundation will be run by a nine-member Board of Trustees that will be separate and independent from the ACWA Board of Directors. The first Board will meet before the end of the year.

For questions about the ACWA Foundation, contact ACWA Senior Director of Operations & Member Engagement Tiffany Giammona at tiffanyg@acwa.com. ●

BY ACWA PRESIDENT PAMELA TOBIN

Board Approves ACWA Foundation, Making Aspirational Goal a Reality

After years of discussion and several months of intense planning by a dedicated steering committee and multiple workgroups, my aspirational goal for ACWA of forming a new nonprofit foundation is finally becoming a reality.

I'm proud to announce that on Sept. 23, the ACWA Board of Directors approved filing the necessary legal paperwork to form the nonprofit ACWA Foundation, which will advance the association's efforts to promote diversity, equity and inclusion (DEI) within the water industry.

I can't say enough about how thankful I am for the Board's support, as well as the hard work and leadership of everyone who helped get us over the hurdles and toward the finish line. I've heard from so many people within our membership who agree that ACWA must be able to lead on this issue within California's water industry.

This foundation will provide a tax-exempt structure to educate, mentor, research and invest in the next generation of water leaders, while focusing on attracting a diverse workforce representative of the communities we serve. This nonprofit foundation will also provide a way to fund scholarships, which will open pathways for those who have demonstrated their potential as future water leaders.

ACWA has committed significant resources into launching the foundation by providing staff support and covering the costs of legal services. I hope member agencies and corporate partners will help play a key role in furthering the foundation's success.

The foundation will operate independently from ACWA itself with its own Board of Trustees. It will take a little time for it to make a difference, but there is no better time than now to start making that difference.

Forty-five years ago, ACWA's leaders recognized a long-term need and created what is known today as the Water Education Foundation. Formed in 1977, this foundation today offers educational materials, tours, water leadership training and conferences that bring together diverse voices. Education about water was then, and remains today, an urgent need. Today, I feel strongly that we need to invest in attracting, inspiring and training tomorrow's water workforce in a way that reflects California's diverse population. The ACWA Foundation is poised to fulfill that mission on a generational scale. ●

MISSION

ACWA Foundation exists to serve California by promoting diversity, equity and inclusion within the water industry through education, research and workforce development.

VISION

ACWA Foundation envisions a California water industry that embraces and represents the people it serves.

ACWA Opens Fall Conference Registration

ACWA's 2022 Fall Conference & Exhibition returns to Indian Wells Nov. 29-Dec. 1 for the first time since 2015. Online registration is open at **www.acwa. com/events** and the deadline to register online is Nov. 11.

ACWA will host the conference at the Renaissance Esmeralda and Hyatt Regency in Indian Wells. Selected programs and keynote speeches will be videotaped and available following the conference, but the conference will not feature simultaneous virtual access.

Planning is currently underway on statewide issue forums, discussion panels, roundtable talks and region discussions that will cover a wide range of top issues and emerging trends within the California water space. Water management, drought response, innovation, public communication, energy, finance and federal affairs are a few examples among many areas where the conference will connect attendees with the latest news, insights and looks ahead on developments affecting their agencies.

Similar to past ACWA conferences, attendees can expect keynote addresses delivered by leading figures within California water, while important committee meetings and region membership meetings will also be held.

The popular Exhibit Hall will offer innovative products and services specifically designed for water agency professionals. Continuing education will also be available for attorney, finance,

energy, and drinking water operator professionals.

ACWA will also continue its group savings offer. If an attending agency or organization registers five individuals, it will receive a sixth registration free of charge.

Quench California Campaign Launches New Toolkit

ACWA's public education campaign Quench California is in full swing with social media and digital advertising being shared statewide and a second member toolkit now available.

The social media strategy includes use of ACWA's Twitter, Facebook, Instagram and LinkedIn accounts and leverages member participation with social media graphics and customizable content.

New digital advertising is being created each month and being seen across the state primarily on news, weather and sports websites.

Digital ads and social media are the two primary drivers to the website. As of Sept. 20, the ads earned more than 10 million impressions and there were 20,000 visits to the website.

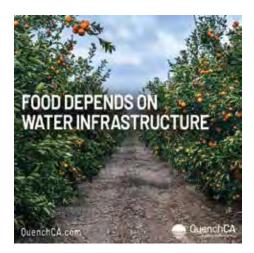

Staff continues to work with member agencies to build the content on the Project Library page, which highlights specific water infrastructure projects across the state to help illustrate the importance of such projects in different communities. If you want to include an infrastructure project from your agency, contact ACWA Director of Communications Heather Engel at heathere@acwa.com.

Toolkits

ACWA recently distributed the latest communications toolkit to members. It includes an infographic, customizable newsletter and blog posts, and updated social media graphics. ACWA members can access the toolkit items at **www.acwa. com/resources**.

Members are encouraged to utilize the customizable tools in two ways:

 Help disseminate the QuenchCA messaging and promote the website to amplify the campaign's benefits throughout the state. Distribute customized sample social media posts, graphics and hashtags on your agency's social media accounts.

Incorporate the QuenchCA materials into your agency's efforts to educate customers about the importance of water infrastructure in their community. Add the campaign logo and website to social media posts and other collateral materials about agency infrastructure projects.

New Water Year Begins With Good News on Conservation

Statewide water use in August showed savings of 10.5% relative to August 2020, which is the second lowest for the month apart from 2015, according to the State Water Resources Control Board at its Oct. 3 meeting.

ACWA member agencies continue promoting conservation, offering rebate and incentive programs, and educating customers about water efficiency. Lawn rebate money paid to customers now has the added benefit of being exempt from state tax, thanks to an ACWA-sponsored bill recently signed into law by Gov. Gavin Newsom.

However, conservation is just one component of the comprehensive strategy needed to address long-term climate resilience, which is why ACWA staff continue to advocate at the state and federal levels for further investments in water infrastructure. A Drought Action Workshop Webinar on Oct. 19 will share innovative and unique water conservation efforts that can be replicated in other areas. There will also be time for facilitated collaboration between state and local water agencies. California Natural Resources Secretary Wade Crowfoot will share his thoughts and forecasts on the drought.

The webinar was organized by the Save Our Water campaign in partnership with ACWA, California Urban Water Agencies, California Municipal Utilities Association and California Water Association. To learn more and register, visit **www.acwa.com/events**.

New Water Year, Same Drought

Tempering the good news on conservation, Water Year 2022 ended Sept. 30 and featured continued extreme drought with historically dry months and a record-shattering heatwave, as described in a Department of Water Resources news release. Now, the focus shifts to the months ahead with state officials preparing for a fourth dry year.

Despite some rain recorded in parts of California in September, uncertainty remains about what the new water year may bring. Long-range forecasting suggests warmer and drier than average conditions will persist.

Water Year 2022 ended with statewide precipitation at 76% of average. Statewide reservoir storage is 69% of average for this time of year. Lake Oroville, the State Water Project's largest reservoir, sits at 64% of average for this time of year.

The years 2020 to 2022 now represent the driest three-year period on record, breaking the old record set by the previous drought from 2013 to 2015. ●

DWR Releases Urban Water Use Efficiency Recommendations

The Department of Water Resources (DWR) recently released a set of recommendations that it claims would improve long-term water use efficiency as California adapts to a hotter, drier future driven by climate change.

The recommendations were submitted Sept. 29 to the State Water Resources Control Board for approval and were a requirement under SB 606 and AB 1668 (2018), which were enacted in support of "Making Water Conservation a California Way of Life."

The bills established a new framework for long-term improvements in drought planning and directed DWR to conduct necessary studies and investigations and make recommendations to the State Water Board on the following topics:

- 1. Standards for outdoor residential water use
- 2. Standards for outdoor irrigation of landscape areas with dedicated irrigation meters
- 3. Performance measures for commercial, industrial, and institutional (CII) water use
- 4. Appropriate variances for unique uses that affect urban retail water use
- 5. Guidelines and methodologies for the State Water Board to adopt

In its recommendation memo, DWR states that a full recommendation report with more details will follow. ACWA distributed a Regulatory Advisory on Oct. 3 with more details and a link to the DWR recommendations memo. Members can read the Advisory at **www.acwa.com**.

The State Water Board will evaluate DWR's recommendations through a formal rulemaking process to adopt water use objectives for urban retail suppliers, which will include additional analysis, engagement, and opportunity for public comment. The water use objectives are expected go into effect by Jan. 1, 2024.

ACWA and its member agencies have had significant engagement with DWR on its development of the recommendations. ACWA staff will continue to advocate for water use efficiency standards and objectives that are feasible, minimize potential impacts to water and wastewater management, and do not impair water agencies' ability to make long-term investments for climate resilience.

SB 222 continued from page 1

CalFresh (food) and CARE (energy) is a great idea, but the state should handle it," stated ACWA's veto request letter. "It makes no sense for thousands of local water agencies to handle auto enrollment as SB 222 proposes instead of one state agency handling it." The veto letters also underscored the lack of a funding source for the program, and Newsom focused on that issue in his veto message.

"I commend the author and stakeholders for their work during this Legislative session to craft a vision for such a program," Newsom wrote. "However, this bill does not have any funding identified, and because it is an ongoing program that would require all community water systems and wastewater systems to participate, signing this policy would result in significant General Fund pressures in the billions of dollars to continuously provide such assistance." ●

Final Status of Key Water Bills for 2021-'22 Legislative Session

Bill	Author	Status	Details
AB 2142 Turf Rebate Tax Exemption	Assembly Member Jesse Gabriel (D-Encino)	Signed	Exempts turf rebates from California taxable income for tax years 2022 through 2026. ACWA co-sponsored this bill with the California Water Efficiency Partnership and WaterNow Alliance. It passed the Legislature without having received a single "no" vote. This new law will help water agencies further incentivize customers to replace lawns with water-wise landscaping during the drought.
SB 1157 Indoor Water Use Efficiency Standards	Senator Bob Hertzberg (D-Van Nuys)	Signed	Codifies more stringent indoor residential water standards. Standards would be lowered in stages until Jan. 1, 2030, when the final standard will be reduced to 42 gallons per capita daily. ACWA maintained an oppose-unless- amended position and did secure amendments, including a requirement that the Department of Water Resources complete a new study to assess and quantify the economic benefits of the proposed 2030 standard.
SB 222 Low-Income Water Rate Assistance	Senator Bill Dodd (D-Napa)	Vetoed	Would have created a low-income Water Rate Assistance Program for drinking water and wastewater services. ACWA supports creating a low- income rate assistance program - if designed in a reasonable, efficient and effective manner. ACWA secured numerous amendments but maintained an oppose-unless-amended position in part because the bill still proposed an inefficient and unclear enrollment process that would have wasted program funding, once identified, on program administration.
SB 1205 Water Rights	Senator Ben Allen (D-Santa Monica)	Signed	Establishes a uniform methodology for calculating water available for appropriation. ACWA supported the bill after successfully obtaining amendments to specify that the regulations would not apply to current water right holders and that the development of regulations would not delay pending water right applications.
AB 2201 Groundwater Extraction Permits	Assembly Member Steve Bennett (D-Ventura)	Stopped in the Assembly without a final vote	Would have substantively changed how applications for certain new or expanded groundwater wells in medium- or high-priority groundwater basins were reviewed and approved. ACWA maintained an oppose-unless- amended position on the bill, which would have potentially required a California Environmental Quality Act analysis for each well application and possibly created legal liability for groundwater sustainability agencies.
AB 2419 Federal Funding Requirements	Assembly Member Isaac Bryan (D-Los Angeles)	Died in Senate Appropriations Committee	Would have established a mandate that 40% of funding received by the state under the federal Infrastructure Investment and Jobs Act be allocated to projects that provide direct benefits to disadvantaged communities. The bill proposed a mandate, even though the Biden Administration had established a goal – the federal Justice40 Initiative – in an Executive Order. ACWA advocated extensively in opposition to AB 2419, seeking amendments to make the bill a goal only that mirrors the federal Justice40 Initiative.
AB 1931 Lead Service Lines	Assembly Member Luz Rivas (D-San Fernando Valley)	Held in Senate Appropriations Committee	Would have set forth extensive new requirements related to lead service line replacements at the same time that the Biden Administration is strengthening recent changes to the federal Lead and Copper Rule. ACWA opposed the bill initially because the proposal was overly burdensome and could have resulted in conflicting, or at least duplicative, federal and state requirements. After significant amendments were made, ACWA moved to an oppose-unless-amended position because additional amendments were needed to achieve an appropriate scope for the program.

PCWA Reports on Mosquito Fire Impacts

At the Sept. 15 meeting of the Placer County Water Agency (PCWA) Board of Directors, the members received a comprehensive report from staff on the progress of the Mosquito Fire and the status of PCWA's Middle Fork American River Project, which is located within the footprint of the Mosquito Fire.

"While damage to the project cannot be fully assessed at this time, we can report that energy generation has been severely curtailed," explained PCWA General Manager Andy Fecko, according to a PCWA news release. "As of this morning, our top concern is our largest powerhouse, the Middle Fork Powerhouse, which is located within a mile of the fire's eastern boundary."

Despite losing the ability to generate power, the agency continues to meet its

minimum stream flow requirements out of Middle Fork Powerhouse and Oxbow Powerhouse, keeping water flowing and available for fire-fighting efforts. So far, there is no impact to water supply or water service for PCWA customers.

"On behalf of the PCWA Board of Directors and agency employees, I want to send our heartfelt condolences to all those affected by the Mosquito Fire," said Board Chairman Mike Lee in the news release. "PCWA has a number of employees who live and work in the affected communities, and I thank those who have come together to support them. I also want to express our profound appreciation to fire-fighting personnel and other first responders who have battled record heat and unforgiving terrain to protect lives and property."

The Mosquito Fire erupted on the evening of Sept. 6 near Oxbow Reservoir in the Tahoe National Forest. PCWA evacuated all employees from the area, coordinated with emergency responders on the location and protection of agency assets, and opened its facilities in Foresthill and Auburn to personnel working on the front lines of the fire.

"The Mosquito Fire is the type of fire PCWA has been concerned about for

continued on page 7

Board Approves Budgets for Fiscal Years 2023 and 2024

The ACWA Board of Directors on Sept. 23 adopted a two-year budget that furthers ACWA's goals of maintaining financial stability while continuing to provide high levels of services to association members during this challenging time of annual inflation over 8%.

The budget begins to implement the Board's commitment to paying down the association's unfunded CalPERS' pension liability by utilizing the proceeds of the sale of ACWA's office building at 910 K Street. This follows ACWA's successful multi-year effort to fully fund its retiree health benefit obligation that will strengthen ACWA's financial well-being for many years to come. The two-year budget includes dues increases of 4% in 2023 and 3% in 2024.

Election Process

The Board also agreed with the recommendations of a Board-appointed task force to present to the membership of ACWA at fall conference for approval of amendments to ACWA bylaws to comprehensively update the association's election process for Board officers.

Some key proposed changes include: moving from in-person only voting to allow members to vote remotely by email or U.S. mail; hosting a town hall webinar featuring candidates for Board President and Vice President; creating an "Elections" page on ACWA's website to share relevant information with members; creating an Elections Committee representing all 10 regions and a representative appointed by the President of ACWA to review nominee qualifications and identify a recommended candidate for the ballot; including all qualified candidates for office on the ballot; and eliminating the nomination of candidates from the floor of the membership meeting.

Court Case Update

Board members received an update from ACWA staff on the California Supreme

Court's declining to review a ruling on Almond Alliance of California v. Fish and Game Commission. The decision regarded a controversial appellate court decision that extended protections under the state's endangered species law to bumblebees and other insects. By allowing the ruling to stand, this case opens the door to listing any invertebrate under the California Endangered Species Act and may ultimately result in increased regulatory requirements and compliance costs for ACWA's member agencies.

Mentorship Program

Board members voted to approve formation of a mentorship program where members of the Council of Past Presidents will work with new association members to encourage more frequent engagement with ACWA. Vice President Cathy Green is leading this effort with assistance from ACWA staff. \blacklozenge

Small Water District Responds to Mosquito Fire Emergency

The Board of Directors of the Georgetown Divide Public Utility District (GDPUD) convened a special meeting on Sept. 6 to discuss the need to maintain irrigation services for fire mitigation due to unprecedented extreme temperatures.

"We had no idea that within hours of adjourning, the Mosquito fire would start in Placer County and quickly expand into El Dorado County. In fact, I could see the smoke during my drive home from the meeting," stated Board President Michael Saunders in a GDPUD news release.

"The timing of the fire shows the relevance for not only our district but the region's focus on critical water infrastructure for fire mitigation and fire suppression. These policies and infrastructure are not just about water delivery, it is about protecting our communities," said Saunders, who also serves on ACWA's Region 3 Board.

During the deliberation, board members recounted the recent devastating wildfires in the area, including the Caldor Fire that seriously impacted the neighboring districts of El Dorado Irrigation District and Grizzly Flats Community Services District. They discussed the importance of keeping ponds filled for firefighting and maintaining green irrigated landscaping during the fire-prone time of the year.

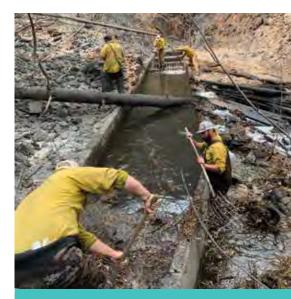

The district has limited firefighting capacity through treated water sources and storage tanks, requiring a combination of treated and raw water to effectively fight fires. Having communicated with the State Water Resources Control Board and receiving advice from legal counsel, the Board modified the district's Level 2 Water Shortage Contingency Plan to allow irrigation service to continue to the original end date of Sept. 30.

By the morning of Sept. 9, Georgetown was under an evacuation order and the GDPUD office closed. In coordination with the CalFire Command Center and the U.S. Forest Service, district crews were being escorted through checkpoints to access distribution infrastructure that required work to restore water flow.

The Board held an emergency meeting on Sept. 13, to receive an update on the impact of the Mosquito Fire and consider emergency response action. A State of Emergency Order was proclaimed by Gov. Gavin Newsom allowing the district to access funding from the Federal Emergency Management Agency (FEMA).

Operations Manager Adam Brown reported to the Board that "the fire had impacted the tunnel area almost up to our diversion, but a full assessment had yet to be done at that point." Brown added, "the emergency for the district will continue during the aftermath dealing with erosion, landslides, blocked ditches, clearing debris, and making repairs to the system."

GDPUD's distribution crew jumped into action, and despite having to evacuate their own families, they knew the importance of their work to keep the water flowing. District water was being used to fight the fire through hydrants and from the district's water supply ditches at 100 gallons per minute. Brown also stated, "it has been beneficial for the district to be able to work with the Cal-Fire Incident

A GDPUD crew at work clearing a ditch during the Mosquito Fire. District workers jumped into action despite having to evacuate their own families. *Photo courtesy of GDPUD*

Command, U.S. Forest Service, Sierra Pacific, the El Dorado Irrigation District, and state water agencies in scoping out the next steps to deal with this emergency."

Efforts are underway to access funding through FEMA and the California Governor's Office of Emergency Services to help ensure the district's infrastructure and water supply won't be interrupted.

Director Gerry Stewart stated in the news release that he has received several calls from customers grateful for the hard work the district was able to provide to keep the water flowing and for keeping them informed through the WaterSmart notification system. He commended Brown and the crew for their excellent work and dedication.

continued from page 6

the last decade, and the reason we take protection of our watershed so seriously," Fecko said. "Experience has shown that the impacts to our rivers, hydroelectric facilities, and ecosystem will take years to remediate and cost tens of millions of dollars. The action taken by the PCWA Board today will allow the agency to expedite emergency repairs on the project once conditions allow. Safety of staff and customers remains our highest priority." The Mosquito Fire is the largest California wildfire in 2022, so far, burning through nearly 77,000 acres with 95% containment as of Oct. 6, according to InciWeb, an interagency all-risk incident information management system. ●

SPOTLIGHT

New Treatment Tech Harvests Agricultural Water

New water treatment technology could recover drinking water during the industrial process that turns tomatoes into paste and other products. Recently tested at Ingomar Packing Company in Los Banos, the technology could produce potable water by the millions of gallons for distribution to disadvantaged communities within the Central California Irrigation District (CCID), fulfilling a major priority for the ACWAmember agency.

The technology belongs to the Australianbased company Botanical Water Technologies, or BWT, which packs it into mobile, remotely operated plant-water harvester units about the size of a shipping container. BWT recently established its first U.S. partnership with Ingomar, the second largest tomato processer in the country, where much of the tomatoes processed originate from growers served by CCID. As one of the largest irrigation districts in the Central Valley, CCID serves over 1,600 growers who farm across more than 143,000 acres of prime farmland. Like many agricultural areas, CCID's territory includes disadvantaged communities where reliable access to safe drinking water can be a challenge, one exacerbated by the drought as many wells dry up. It's there that CCID General Manager Jarrett Martin sees one of the biggest potential benefits from BWT-treated water.

"We can help the disadvantaged communities, we can help agriculture and we can help industry. It's a situation where everyone wins," Martin said.

BWT's Ingomar project plans to provide up to 100 million gallons of potable water a year — a little more than 306 acre-feet — by 2025 for drinking water, groundwater replenishment and community projects, according to a news release from the company. The water originates as evaporative condensate during tomato processing. Partially relying on reverse osmosis, BWT's technology extracts a percentage of that condensate and treats it to potable quality.

Future partnerships with community organizations such as Self-Help Enterprises in the Central Valley could see some of that water delivered to disadvantaged communities in the form of totes, or tanker-truck quantities that could replenish storage tanks in areas where wells have run dry.

For BWT, the Ingomar project is one part of a much larger expansion plan that could include 200 plant harvester units in the U.S., Mexico and India, located in areas with water supply vulnerabilities. The units can also produce potable water from sugar mills and fruit and vegetable concentrators. The company earns revenue through the trade of Water Impact Credits on a Botanical Water Exchange, similar to the system used with carbon credits. Corporations use the credits to offset water use by receiving proof of compliance with environmental, social and governance standards, increasingly an issue with investors and government regulators.

"Really, what we're trying to do is match that water with needs within the aquifer," said Jeff Simonetti, Strategic Advisory and Water Resources Consultant for BWT. Back at CCID, there are plenty of needs to match. In addition to helping provide more safe water to disadvantaged communities, uses for BWT-produced water could help in recharging groundwater in the area, where CCID manages the Groundwater Sustainability Agency for the Exchange Contractors Water Authority. Or, it could also be used to grow and process more tomatoes.

CAL

lerstigariel rze tona resistiał intererze ore

"That's where it completes the circle," Martin said. "We grow processing tomatoes with water from CCID, capture the water back from the tomato and put it to beneficial use for our disadvantaged communities." ●

OCT. 1 - 9, 2022 LEARN MORE

Program attendees listened to presentations and panel discussions on adapting to climate change and regional innovations in conservation. Attendees also received a tour of Burbank Water & Power's innovative EcoCampus, including a view of its rooftop gardens which reduce energy use and capture rain water.

Region 8 Program Sparks Innovative Conversations on Conservation and Climate Change

By: ACWA Region 8 Chair Gloria Gray

ACWA Region 8 hosted a timely program on the future of Southern California's water supply and regional innovations in conservation strategies. The Sept. 19 event attracted 68 people who enjoyed panel discussions and a tour of Burbank Water & Power's innovative EcoCampus.

Attendees networked over coffee in Burbank Water & Power's Centennial Courtyard before gathering inside for the program. To start, Burbank Water & Power General Manager Dawn Roth Lindell welcomed attendees to the EcoCampus and shared a few of the innovative projects currently underway, including an iron-flow battery, satellite leak detection and local solar partnerships.

After lunch, Interim Pasadena Water and Power General Manager Jeff Kightlinger discussed adapting to climate change and what that means for Southern California's water supply.

"We have real tough issues to deal with in terms of climate change," Kightlinger said. He explained that higher temperatures mean less runoff and a shifting trend from long-term steady snow to 15-18 days of heavy rain – something our infrastructure was not built for. He also emphasized the challenges of the Colorado River as being oversubscribed and overpromised.

In addition, "we're going to have to move faster" to capture and store more rainfall as it gets wetter and wetter. "On the positive side, we've got wet stuff to work with. We just need to get the infrastructure and tools so we can manage it," Kightlinger said.

Irvine Ranch Water District Director and ACWA Past President Steven LaMar moderated a panel, "Regional Innovations in Conservation Strategies." Panelists included Upper San Gabriel Valley Municipal Water District (Upper District) Director of Government and Community Affairs Patty Cortez, Metropolitan Water District of Southern California (MWD) Creative Marketing Manager Debra Sass and Long Beach Water Department (Long Beach Water) Assistant General Manager Anatole Falagan.

The panelists shared programs and campaigns their agencies are using to promote, encourage and spur conservation.

Sass shared MWD's "This is How We Save Water" campaign, which is the most diverse and inclusive campaign that the district has ever conducted. Aspects of the campaign include in-house commercials, social media influencers, sport team partnerships, mobile gaming and partnerships with nurseries. The full campaign is running in seven different languages.

Cortez highlighted Upper District's Water Smart Home Program that focused on direct installs for underserved households.

"In these disadvantaged communities, these are individuals who want to save water (but) they don't know how or don't have the resources," Cortez said.

From June 2021 to June 2022, 163 homes were retrofitted with more than 7,000 water conservation devices. This equates to a savings of approximately 10 million gallons per year based on sprinkler and pressure stations installed.

Falagan wrapped up the panel by discussing Long Beach Water's conservation approach which focuses on habit changes and encouraging new habits.

"I often tell people non-functional turf... it's not that the space is non-functional," Falagan said. "So, the questions is, can we work with businesses to give them the alternative function to turf?"

Free Brochures Available for Recruiting Next Generation of Water Professionals

As water and energy industry professionals brace for a wave of impending retirements, the Water Energy Education Alliance (WEEA) continues to offer valuable resources to help recruit the next generation of skilled, prepared, and invested workers.

Led and administered by the Municipal Water District of Orange County (MWDOC), the Alliance has utilized the award-winning talent of the MWDOC Public Affairs team to create two electronic recruitment brochures for the water and energy sector.

Water and energy providers, educators, school counselors, regional occupation program providers, and many others can use the brochures free of charge to support their recruitment efforts.

In the last few years, water and energy providers have been examining their workforce needs to help them better prepare for the dreaded "Silver Tsunami," a projected mass exodus of industry workers who are now eligible for retirement. These valued employees have spent their entire careers mastering their craft and will be taking decades of skill, knowledge and certifications with them. In fact, it is estimated that 30%-50% of current positions will be left vacant, and some agencies are already experiencing losses.

The two electronic brochures include language extensively researched to attract middle school to entry-level college students, emphasizing the workplace benefits that currently motivate them. The environment, sustainability, community connection, opportunities for continued learning, and work-life balance consistently hit the top of the list of career considerations. The overarching message of the brochures is simply, "Your search for a great career begins here!"

The brochures are currently available for download electronically, and organizations who use them can add their logo alongside the WEEA logo to personalize them. They can be shared across social media, on websites, in newsletters, and with teachers, parents, and students via email. They can also be printed for use at community events, career fairs, and school functions.

To access the brochures, visit **www.mwdoc.com/weea**. If you have questions or would prefer to receive a direct link, contact Tiffany Baca at tbaca@mwdoc.com or (714) 593-5013. ●

Long Beach Water has partnered with the California Native Plant Society to help homeowners rip out their parkway and replace it with more native, droughttolerant landscapes. If homeowners are able to encourage multiple neighbors to participate, then the plant society will come and do it for them. Long Beach Water also has a Blue Restaurant Certification program that recognizes restaurants that achieve exceptional water efficiency. The program ended with a tour of the Burbank Water & Power EcoCampus which integrates multiple sustainable landscape technologies including solar, underground water storage percolation, green roofs, LEED Platinum buildings and more.

Thank you to the event sponsors, Best Best & Krieger, Lagerlof, Stantec, Santa Clarita Valley Water Agency and Walnut Valley Water District. ●

Edward J. Caldwell

West Basin Names Caldwell AGM

The West Basin Municipal Water District has announced the promotion of **Edward J. (E.J.) Caldwell** to the role of Assistant General Manager.

Caldwell has been a West Basin employee for the past 16 years and previously served as Interim General Manager, Manager of Water Policy and Resource Development, and Government Affairs Program Manager. He earned a law degree from Willamette University, College of Law, passed the State Bar of California, and possesses a bachelor's degree in political science from the University of Arizona. He also has extensive experience in the water industry, which includes involvement as the Chair of the Water Utility Council with the California-Nevada American Water Works Association. ♠

Rocky Qualin

Padre Dam Appoints Qualin to Board

Padre Dam Municipal Water District's Board of Directors has appointed **Rocky Qualin** to the Board. He will fill the seat left by **James Peasley**, who recently passed away.

A long-time Santee resident, Qualin earned a bachelor's degree in finance from San Diego

State University and has more than 25 years of experience as a banking and insurance executive.

"My interest in being part of the Padre Dam board is to ensure that my community is provided with safe and reliable water and sewer services at the lowest costs possible," Qualin stated in a news release. "I believe Jim's service on the board was achieving this and I hope to continue down the successful path he created as I fill this role." •

Robert Griffith

MSWD Appoints Griffith to Board

The Mission Springs Water District (MSWD) Board of Directors in September voted unanimously to appoint local businessman **Robert Griffith** to the Board. He replaces **Randy Duncan**, who resigned from the Board in August.

Griffith previously served as a Desert Hot Springs (DHS) Councilmember and Mayor Pro Tem. He also has held positions on the Desert Hot Springs Planning Commission.

"Robert's knowledge and dedication to the DHS community are unparalleled," said Board President **Russ Martin**. "I'm confident in his ability to represent our customers and am honored to serve alongside him on the MSWD Board." ●

Nicholas Schneider

GDPUD Names Schneider GM

The Georgetown Divide Public Utility District Board of Directors recently named **Nicholas Schneider** as General Manager.

Schneider comes to the district from the Mojave Water Agency, where he managed a budget exceeding \$5 million. He has a master's degree in environmental engineering, a bachelor's degree in turfgrass science and associate degrees in business, construction technology and horticulture.

He also holds relevant certifications, including an American Water Works Association Water Use Efficiency Practitioner Grade 1, Water Distribution Grade 2 and Water Treatment Grade 2.

Let's Save Water, California!

California is entering its fourth year of drought due to climate change. We must act now. Let's save water to save California. Access our toolkit at **www.saveourwater.com** to help spread the word about water conservation.

Five years ago

Thanks to strong advocacy and leadership by ACWA and a coalition of water associations, the Legislature approved California's first-ever Water Professionals Appreciation Week. Agencies across the state recognized the occasion by organizing events and programs that showcased the important role that water professionals play in delivering water while also promoting careers in the water industry.

10 years ago

ACWA member Inland Empire Utilities Agency became home to what was believed to be the nation's largest biogas-powered fuel cell system to generate electricity. Located in Ontario, the 2.8 megawatt power plant ran on converted digester gas waste from a water recycling plant.

20 years ago

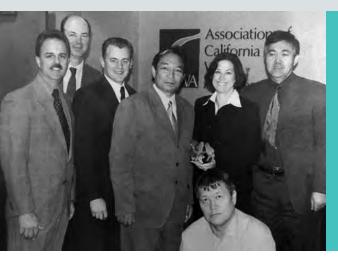

A delegation from Kazakhstan visited ACWA headquarters to learn about how associations are formed and operated and how independent water agencies are structured. The visit was a part of International Day at ACWA, which also included a Hands Across the Border program with a brainstorming meeting on how to assist water providers in Mexico.

30 years ago

ACWA announced the selection of Stephen K. Hall as the association's new Executive Director to replace John P. Fraser, who announced his retirement from the position after 19 years of leading the association.

40 years ago

ACWA members were cheered by a significant victory in the long-running battle over acreage limitations when President Ronald Reagan signed the Reclamation Reform Act of 1982. The new law capped a decades-long effort that included numerous administrative, legal and legislative strategies as well as a concerted education campaign dating back to the association's Water Economics Committee.

Representatives from Kazakhstan's water industry visited ACWA's Sacramento headquarters in October, 2002 to learn more about how associations are formed and operated, and how independent water agencies are structured.

Waterworks Management Degree Program Supports Career Growth October 5, 2022

Water and wastewater industry employees can advance their professional careers with a specialty degree to help them achieve their goals. The industry offers vast <u>opportunities</u> in engineering, operations, finance, public affairs, human resources, administration and information technology.

The <u>Bachelor of Public Administration (BPA) degree with a concentration in Waterworks Management</u> is offered by National University in partnership with <u>Cuyamaca College</u>. Monir Masoud, Director of Community College Pathways at National University, said scholarship opportunities can help reduce the cost of the degree program by as much as 46%.

Masoud said prospective students with an associate's degree from any California community college can complete the degree using the one course per month format in 17 months, which is ideal for working professionals following a nontraditional educational path.

"We have a support system that we walk step by step with students," said Masoud. "Students start with an enrollment advisor, then academic financial aid, and faculty."

Students can also stretch out the courses with breaks when needed and continue to progress toward their degree at their own pace. Three students have completed the degree's course requirements to date.

Value as a career advancement tool

Water industry professionals can accelerate their career advancement through higher education. Photo: National University

The waterwork management degree, launched 18 months ago, was developed in collaboration with regional employers and driven by growing demands for skilled career professionals in the water and wastewater industry.

Graduates will be able to address the issues and challenges facing water and wastewater agencies at the state, regional, and local levels, including governing requirements and regulatory compliance, while employing water management best practices.

"I would tell my employees go get schooling because they become a change agent, said Masoud." Most of our organizations, especially in California, are doing a great job upskilling their employees. And we have this

tuition reimbursement ready for them. Employers can retain and maintain their workforce in this tough market we are in."

Demand for skilled water and wastewater professionals

California Dept. of Water Resources staff services manager Norma Alvarado talks with students at a water industry career fair showcasing a broad array of options. Photo: Kelly M. Grow/California Department of Water Resources

The water and wastewater industry's rapidly growing demand for highly skilled professionals shows no signs of slowing in the coming years. Impending retirements will create a need to fill California's 12,000 to 20,000 water and wastewater jobs. Many of these positions require a bachelor's degree, such as the National University BPA degree.

As seasoned leaders retire, water and wastewater agencies struggle to fill job vacancies requiring a focused bachelor's degree. Students earning the new degree will complete National University's four-course concentration of upper-division courses studying water and waterworks management and leadership, water law and compliance, and human resources and labor law.

Degree program well suited for military veterans

National University offers all BPA courses online. Students can begin the <u>BPA program</u> at any time.

The BPA waterworks concentration is particularly well suited for veterans using their GI benefits to further their education. Veterans are eligible to apply their military experience and education toward certifications in the water industry.

San Diego County Water Authority

Water managers and other officials discussed ways to slow or stabilize the rate of decline of the Colorado River Basin, a major source of water for seven states and Mexico. Photo: U.S. Bureau of Reclamation

Collaboration Key to Stabilizing Colorado River Basin Decline October 6, 2022

Collaboration among all water users is key to developing solutions for the Colorado River Basin, which is in the midst of a 22-year megadrought. That was one of the common themes during a webinar Thursday, in which water managers and other officials discussed ways to slow or stabilize the rate of decline of the major source of water for seven states and Mexico.

"A Collaborative Approach to Colorado River Management," was part of the <u>Southern California Water</u> <u>Coalition</u>'s "What Matters" webinar series. The San Diego County Water Authority, Imperial Irrigation District, Black & Veatch, and Richard Brady & Associates sponsored the webinar.

Webinar participants:

- Sandra Kerl, San Diego County Water Authority General Manager
- Henry Martinez, Imperial Irrigation District General Manager
- Adel Hagekhali, General Manager of the Metropolitan Southern California Water District
- David Palumbo, Deputy Commissioner Operations, U.S. Bureau of Reclamation
- Thomas Tortez, Jr., Tribal Chairman, Torres Martinez Desert Cahuilla Indians
- Michael Cohen, Senior Associate, Pacific Institute
- Chris Harris, Executive Director, Colorado River Board of California

"Unprecendented" and "challenging times"

During the 90-minute discussion, speakers said that drought and climate change impacts on the Colorado River Basin have created "challenging times" and that "unprecedented times require unprecendented management" solutions. Solutions mentioned included sustainable conservation, additional storage, a reduction in demand, and inclusion of all users to ensure the long-term health of the river system.

The Water Authority's supply portfolio includes high-priority, conserved <u>Colorado River supplies</u> negotiated through the landmark 2003 Quantification Settlement Agreement, or QSA. The conserved supplies are the cornerstone of the San Diego region's long-term water supply diversification strategy.

Colorado River Basin: Voluntary reductions from California

The webinar came a day after California water agencies that use Colorado River water supplies, sent a <u>letter</u> to the U.S. Department of the Interior and U.S. Bureau of Reclamation, <u>voluntarily</u> offering to reduce their use of water from the river starting in 2023:

"Given dire drought conditions across the region and dangerously low reservoir levels, we firmly believe that all water users within the Basin must take immediate voluntary actions to stabilize water supplies in the Basin's major reservoirs.

"California water agencies that utilize Colorado River water supplies propose to conserve up to an additional 400,000 acre-feet of water in Lake Mead each year, beginning in 2023 and running through 2026. This water, which would otherwise be used by California's communities and farms, will meaningfully contribute to stabilizing the Colorado River reservoir system. While a broad multi-state agreement to conserve water across the Basin has not been reached, the California agencies propose to take voluntary action now to conserve water in coming months."

Where Do We Go from Here?

Short-term (2023-2026)

- · Stabilize the Reservoir System.
- 2-4 MAFY of additional conservation 2023-2026.
- Develop post-2026 framework for Colorado River management.
- Long-term (post-2026)
 - Implement next set of Guidelines—
 - Address Supply/Demand imbalance.
 - Provide water supply reliability and certainty in the face of aridification and climate change.
 - Continue to meet environmental obligations and commitments

Graphic shared October 6, 2022, during the Southern California Water Coalition webinar "A Collaborative Approach to Colorado River Management."

Key vote for Doheny desalination plant coming Thursday

After Coastal Commission killed Poseidon's Huntington Beach plant, all eyes are on this week's Doheny vote.

A desalination plant proposed for Doheny Beach, shown here in an artist's rendering. (Rendering courtesy of the South Coast Water District.) By <u>BROOKE STAGGS</u> | <u>bstaggs@scng.com</u> | Southern California News Group PUBLISHED: October 11, 2022.

The California Coastal Commission is slated to vote Thursday on a crucial permit for a project that would draw ocean water through the sand off the coast of Dana Point, purify it and use it to help bolster water supplies for communities throughout Southern California.

A dozen desalination plants are permitted to turn ocean water into drinking water in California today, from as far south as Carlsbad to as far north as Monterey Bay. A year ago, three new desalination projects were pending in Southern California alone. But only one still remains viable: the Doheny Ocean Desalination Plant, which is being developed by South Coast Water District.

In December, the board for the West Basin Municipal Water District <u>shelved</u> a 20-year-old plan to build a desalination plant off the coast of El Segundo. The agency said improvements in water recycling and conservation meant the project, which was expected to cost more than half a billion dollars, no longer made sense.

Then in May, the Coastal Commission unanimously <u>voted against Poseidon</u> Water's Huntington Beach Desalination Plant, ending plans that spanned 21 years and cost the private company upwards of \$100 million. The commission said the \$1.4 billion plant was simply too harmful to the ocean, too expensive for water customers and too dangerous for the surrounding community.

But while the Poseidon project in particular drew criticism over the years, the Doheny plant has so far attracted little opposition. And it easily scored its <u>first critical permit</u> this spring, when the San Diego Regional Water Control Board offered its seal of approval with no major concerns raised by the board or the public. That bodes well for Thursday's Coastal Commission vote. Though the agency is notoriously tough when it comes to approving projects along California's coast, commission staff is recommending approval with 16 added conditions.

Two of those conditions concern the project's connection with Doheny State Beach Campground. During the period that wells for the project are being drilled, the 122-space campground would have to be closed for 18 to 24 months, possibly as soon as the end of next year. The water district already is working with State Parks to offer more sites at nearby campgrounds during that period, and to upgrade other local camping areas during construction of the desalination plant. The commission also is asking the water district to develop a clear plan to make those changes and to communicate them to the public.

A handful of individuals and local groups, including the nonprofit Clean Water Now, <u>wrote</u> to the Coastal Commission opposing the Doheny plant due to those beach closures along with environmental, energy use and cost concerns.

"Constructing a desalination plant in Dana Point would not be the most efficient or economical solution to water supply issues," Samantha Barrie writes, asking the commission to deny the permit.

But the project also has received letters of support from dozens of agencies and individuals, including local Reps. Mike Levin and Michelle Steel, and a wide range of local water and power agencies.

There are several factors working in the Doheny desalination project's favor, according to Rick Shintaku, general manager of the South Coast Water District, which provides water to some 35,000 residents in Dana Point, South Laguna Beach and portions of San Clemente and San Juan Capistrano.

The first is need. While central and northern Orange County — including Huntington Beach, where the Poseidon project was located — sit on top of a massive underground aquifer that can cover some 80% of local water supplies, south Orange County has no such resource. That makes those communities up to 90% reliant on water imported from Northern California and the Colorado River, which is expensive and increasingly restricted as California faces record drought.

Then there's how the Doheny project will work. While other local projects planned to directly pull in ocean water, which can also suck up marine life, Shintaku said the Doheny project will be the first commercial-scale plant in the world to use "slant wells," drilled at an angle under the seabed. With water pulled through sand, there's little to no risk to marine life, as illustrated by successful demonstration plants built at Doheny and in Monterey Bay. That's why the Doheny project has actually won support (or least no opposition) from many of the same environmental groups that moved to block the Poseidon plant.

Another advantage is who's backing this project. While the Huntington Beach plant was proposed by a private company, the Doheny project is being shepherded by a public water district. That means more transparency with a publicly elected board and disclosure rules required of public agencies. The agency also can float bonds, get tax credits and access grants to cover costs, with Shintaku citing more than \$32 million in such funding so far and perhaps another \$8 million in the pipeline.

Lastly, there's the price tag. While Poseidon's plant was expected to cost \$1.4 billion, the Doheny project is now projected to cost \$140 million, with the potential to scale the plant up in phases if future demand calls for it.

The current price tag covers a plant that could handle up to 5 million gallons of seawater a day. South Coast Water District only needs about 2 million gallons a day to slash its reliance for imported water in half, Shintaku said. But building such a small plant on its own would raise customer water bills by about \$7 a month — a hit 76% of customers surveyed two years ago said they'd still be OK with. But if they build a 5-million-gallon-per-day plant, and bring on financial partners, bills would only go up by about \$2 per month, which takes public support even higher. So Shintaku said he's been soliciting letters of support from nearby water districts interested in teaming if permits are approved.

If the project wins approval from the Coastal Commission on Thursday, it would need just one more permit, from the state Lands Commission. That agency is slated to vote on the Doheny project on Dec. 9.

From there, Shintaku said they'd need to lock down partnerships, which would each need approval from their own boards. Then they'd need to take the final project plan to their district board for approval before construction could begin, with a target completion date in 2027.

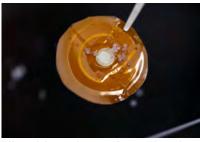

The Coastal Commission is scheduled to vote on the Doheny plant during its meeting that begins 9 a.m. Thursday at the Best Western Island Palms Hotel & Marina in San Diego.

The public can attend and make comments in person or via a livestream at <u>cal-span.org/meetings/CCC</u>. To listen and participate by phone, call 415-904-5202 before the meeting. Learn more at <u>coastal.ca.gov</u>.

Taking salt out of the water equation

by King Abdullah University of Science and Technology

KAUST researchers have developed a membrane with excellent water desalination performance in forward and reverse osmosis configurations. Credit: KAUST; Anastasia Serin

Ultrathin polymer-based ordered membranes that effectively remove salt from seawater and brine could provide a promising alternative to existing water desalination systems, a KAUST-led team demonstrates. Their research appears in *Nature Materials*.

"Water desalination membranes should simultaneously exhibit high water flux and high salt rejection," says Yu Han, who led the study. Carbon nanomaterials, such as carbon nanotubes and graphene, are expected to meet these requirements because of their unique surface chemistry and propensity to stack into channels with diameters smaller than one nanometer. Yet, channel alignment and stacking difficulties make their large-scale use in membranes challenging.

"One way to address these limitations is through two-dimensional porous carbonaceous membranes with regular and uniformly distributed subnanometer-sized molecular transport channels," says first author Jie Shen, a postdoc in Han's group. However, these membranes are typically synthesized in solution, which promotes the random growth of a disordered three-dimensional structure with poorly defined micropores.

Yu Han, Vincent Tung, Ingo Pinnau and former KAUST scientist Lance Li, who is now at the University of Hong Kong, have developed a method that helps control the growth of two-dimensional conjugated polymer frameworks into ultrathin carbon films using <u>chemical vapor deposition</u>.

The researchers deposited the monomer triethynylbenzene on atomically flat single-crystalline copper substrates in the presence of an organic base that acts as a catalyst. Triethynylbenzene bears three reactive groups that serve as anchor points for additional monomers. These groups show a 120-degree angle with respect to each other, generating organized arrays of well-defined cyclic structures that stack into subnanometer-sized rhombic hydrophobic channels.

The membrane displayed excellent water desalination performance in forward and reverse osmosis configurations, surpassing those containing <u>advanced materials</u> such as carbon nanotubes and graphene. It also showed strong rejection for divalent ions, as well as small charged and neutral molecules.

The researchers discovered that the <u>water molecules</u> formed a three-dimensional network inside the membrane instead of moving through the membrane along vertical triangular channels as one-dimensional chains. This explains the fast water transport through the membrane. "This unexpected result revealed that the seemingly discrete vertical channels are actually interconnected by short horizontal channels that can be easily overlooked in the projected structural model," Han says.

The team is now working on improving the antifouling property, <u>mechanical strength</u> and long-term chemical stability of the <u>membrane</u> for future practical applications. They are also fine-tuning its surface-charge properties and channel sizes. "Our ultimate goal is to provide a versatile multifunctional platform that meets the needs of various applications, such as ion sieving, single-molecule sensing and neural interfaces," Han says.
